PROVISIONAL ELECTION

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VA 22313

SIR:

In response to the Restriction Requirement dated April 22, 2005, Applicants elect with traverse Group 3 corresponding to Figures 7-10 and Claims 6 and 11.

Applicants make this election based on the understanding that Applicants are not prejudiced against filing one or more divisional applications that cover the non-elected claims.

In addition to making this election, Applicants respectfully traverse this Restriction Requirement for the reason that MPEP § 803 states:

If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions.

The claims of the present invention would appear to be part of an overlapping search area. Accordingly, Applicants respectfully traverse the Restriction Requirement on the grounds that a search and examination of the entire application would not place a *serious* burden on the

Examiner, whereas it would clearly be burdensome on Applicants to be required to file, prosecute and maintain separate applications and patents on the identified.

Accordingly, it is respectfully requested that the requirement to elect a single group be withdrawn, and that a full examination on the merits of Claims 1-3, 6-8, and 10-12 be conducted.

Finally, attached herewith is a substitute specification showing the replacement of the word "actuator" with "microactuator" throughout the specification and abstract as requested by the examiner. No new matter has been added.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
